Where Community and Capital Meet

DECEMBER 3–4, 2019
Columbia Metropolitan Convention Center
The Invest SC track will connect community organizations and entrepreneurs with financial resources to support their efforts to move forward community development projects that benefit under-resourced communities.

The Capacity Building and Collaboration track will provide access to tools and hands-on support for community development projects, and will highlight innovative examples of projects happening around the state.

The Advocacy and Policy Change track will examine advocacy issues and legislation that impact community development financing, discuss the implications for your work, and offer ways for you to get involved with policy change efforts happening in South Carolina.

The 2019 Investing in Community Summit will connect attendees to projects and policy efforts taking place throughout the state, and provide the tools needed to meet the unique development and capital needs of South Carolina communities.
